PROFILE

Product Designer and Design Engineer building **enterprise SaaS and agentic AI products** across fintech, compliance, pharma, retail and supply chain. I lead end to end: UX briefs and research, wireframes, interactive prototypes, design systems and product demo videos. Experienced in data-dense dashboards, **human-in-the-loop AI workflows**, AI-driven design-to-development pipelines, accessibility (WCAG 2.2) and brand and visual design.

EXPERIENCE

WorldLink Labs

Oct 2025 – Present
Frisco, TX

UX / Product Designer & Design Engineer

- Lead product design for four Fortune 100 clients across banking, pharma and retail, delivering AI, SaaS, compliance and analytics experiences for operations that serve tens of millions of customers daily.
- Partner with the Chairman, executive leadership, Product, Engineering and QA across Agile planning, design reviews, implementation validation, executive demos and sales enablement.
- Prototype in code with Claude Code, Cursor, Devin and Windsurf, so teams review working React builds instead of static mockups.

TARIFF.IO Tariff intelligence · lead product designer

- Redesigned a split-pane, chat-driven interface into one guided pipeline for U.S. import compliance: classify, calculate every duty, file the CBP 7501 and audit past entries, with a customs broker in the loop.
- Designed two core journeys, direct calculation for users with an HTS code and **classify → audit → calculate → export** for users without one, streamlining a 15-step customs journey across 5+ workflows.
- Built three data-entry paths (manual entry, CBP 7501 upload, API ingestion) plus a client journey pipeline, broker review, history and supply-chain visualisation.
- Set the enterprise visual direction: dense layouts with strong hierarchy, sticky KPI rows and **PORTUS**, an AI assistant persona. Planned usability testing with a team proposal and moderator script.

AI-powered GRC platform Governance, risk & compliance

- Owned UX strategy and end-to-end design for six modules on one design system, turning multi-step risk, audit, approval and compliance workflows into clear flows for compliance, risk and security teams.

VERRDICT AI network governance · Fortune 100 bank

- Designed an AI network-governance platform where every decision can be explained: 12 weeks, 8 user interviews and 2 rounds of testing.
- Produced WorldLink-branded demo videos in 1-, 3-, 5- and 10-minute cuts, including script, voiceover and stakeholder revisions.

EXPERTISE

Agentic AI UX · Enterprise SaaS · Design systems · UX research · Design engineering · Accessibility · WCAG 2.2 · Brand & visual design · Data-dense dashboards · Human-in-the-loop AI · Demo video & motion

SKILLS

Product design
UX & interaction design · Wireframing · Prototyping · User flows · Journey mapping · Information architecture · Design systems & tokens · Accessibility

Research & strategy
User interviews · Usability testing · Heuristic evaluation · Competitor analysis · Personas · A/B testing · Card sorting · Tree testing · Affinity mapping · Qual & quant analysis · Product strategy

Visual & brand
Visual design · Brand identity · Typography · Layout · Iconography · Motion · Presentation design · Marketing graphics · Demo video production

Engineering
HTML · CSS · JavaScript · TypeScript · React · Next.js · Storybook · Python · SQL · GitHub

WORLDLINK LABS, CONTINUED

WorldKit & WorldLink DS Design systems

- Architected **WorldKit**: 93 token-driven components that re-theme from four inputs, with WCAG 2.2 colour rules, that **cut design-to-engineering rework by 50%**.
- Built a multi-client token system (primitive → brand → semantic) with a **React + TypeScript + Storybook** library (switchable accent, density, light/dark) and a matching Figma library.
- Created a Token Studio HTML preview tool and an AI-driven design-to-dev workflow, documenting token coverage across client brands.

AI Operations Platform Retail · Fortune 100 retailer

- Designed an AI operations platform that shows every retail role, from the store floor to corporate and IT, what to act on first: six role-based portals on one design system.

Agentic AI Store Assistant Leading convenience-retail client

- Owned UX for an agentic AI platform (built on LangGraph) for equipment maintenance and invoice reconciliation: Agentic Studio front end, live orchestration view, **human-in-the-loop approvals** and multi-modal input.
- Built an animated HTML prototype in the client's design system and produced the teaser and full-platform demo videos.

Pharma AI products Global biopharma

- **GEO Sentimates**: a generative engine optimisation platform showing what AI models say about a brand portfolio's medicines, with confidence intervals, answer-provenance drill-down and an evidence-chip AI chatbot, with Medical Affairs in the loop.
- **GTN Contracting Twin**: a gross-to-net simulation studio where contracting teams change terms and watch every deduction move from gross to net, checked against filed results.
- **Coffee Bean Digital Twin**: three connected twins from green bean to shelf, with scenario runs, A/B comparison, Monte Carlo risk and AI prediction.

Marketing, web & video WorldLink

- Directed the redesign of WorldLink's corporate website, restructuring information architecture, navigation, visual hierarchy and brand storytelling to **increase engagement by 28%**; redesigned the accelerator pages from low-fi to high-fi.
- Produced teaser videos for GRC, AI Layer, Supply Chain Accelerator and IWOL, tracked as Jira stories.
- Designed branded executive and sales decks, a three-variant RFP cover page, and executive LinkedIn and Teams backgrounds.

Velox.ai · Test Forge Test generation

- Redesigned the UX flow for a new test-generation feature and ran wireframe and prototype reviews with the team.

TOOLS

Design
Figma · Figma Make · FigJam · Framer · ProtoPie · Sketch · Adobe XD · Webflow · Storybook

Visual & motion
Illustrator · Photoshop · InDesign · After Effects · Premiere Pro · Canva

AI & code
Claude · Claude Code · ChatGPT · Copilot · Cursor · Devin · Windsurf · Lovable · Bolt · v0 · UX Pilot · Antigravity

Research
UserTesting · Hotjar · Qualtrics · dscout · User Interviews · Google Analytics · Miro · Mural · Lucidchart

Delivery
Jira · Confluence · Notion · Trello · Zeplin · InVision · Drupal · Google Workspace · Microsoft 365

CAD
Fusion 360 · SolidWorks · AutoCAD · CATIA

EXPERIENCE, CONTINUED

Saayam For All
Jun 2025 – Oct 2025
Remote, USA

UX Designer

- Built end-to-end UX for a nonprofit service platform's mobile and web apps, delivering 30+ production-ready screens and reusable patterns that **reduced developer handoff time by 12%**.
- Redesigned the donor payment journey around usability findings, reaching a **90% transaction success rate** and **reducing checkout abandonment by 25%**.

Arizona State University
Jul 2024 – May 2025
Tempe, AZ

UX Designer · Business and Finance

- Designed and optimised 70+ responsive pages in ASU's financial digital ecosystem for 3,000+ monthly users, meeting WCAG 2.2 and institutional design standards.
- Ran mixed-method research (interviews, surveys, usability tests) with students and staff, redesigning navigation, information architecture and workflows to **improve task completion by 30%**.
- Facilitated recurring research and design reviews with 10+ cross-functional stakeholders across content, accessibility and engineering.
- Designed the Harkins Ultimate Fundraiser banner, recognised with the **ASU Sun Award (2024)**.

Infotop Solutions Pvt. Ltd.
Sep 2022 – Jun 2023
Rajkot, India

UX Designer

- Owned full-cycle UX for a fintech platform, simplifying data visualisations and **improving feature discoverability by 40%**.
- Shipped responsive e-commerce checkout flows for a retail client, **lifting conversion by 60%**.

Thinkwik Technologies Pvt. Ltd.
May 2022 – Aug 2022
Ahmedabad, India

UX Designer

- Produced interactive Figma prototypes for 4+ enterprise web apps, speeding stakeholder approvals and shortening feedback cycles.
- Crafted B2B analytics dashboards that **raised client satisfaction scores by 18%**.

OTHER ROLES

StreamerStakes · UX Researcher — **Sep 2024 – Dec 2024**

Simform Solutions Pvt. Ltd. · UX Design Intern — **Jan 2022 – Feb 2022**

BRAND & VISUAL DESIGN

- **Personal brand system**: wordmark, monogram, colour palette, type scale, glass and aura styles, and templates for social posts, LinkedIn cover and portfolio.
- **ASU Sun Award (2024)** for the Harkins Ultimate Fundraiser banner.
- **Attune**: brand identity and product UI for an enterprise coaching platform concept.
- **Social and marketing graphics**: LinkedIn posters, carousels and banners designed on my own brand system.
- **Presentation design**: branded executive, sales and analyst decks for WorldLink and its clients.
- **Portfolio site**: designed and built achyutkhanpara.com in Next.js with Claude Code, from layout and motion to the front-end.
